HTML TASK

Create the following site.

It should have the following

1. Home.html page
2. Courses.html page
3. Finance.html page
4. Results.html page
5. Contact.html page

Create the Home.html

KIEPS TRAINING

Welcome to the Student Portal

[Home](#) [Courses](#) [Finance](#) [Results](#)

Home

This is the home section of the student portal. Here you can find the latest updates and news.

Using the guide below, replicate the same for the other pages and ensure uniformity(the courses page to only contain information about courses)

KIEPS TRAINING

Welcome to the Student Portal

[Home](#) [Courses](#) [Finance](#) [Results](#)

Home

This is the home section of the student portal. Here you can find the latest updates and news.

Courses

In the courses section, you can find information about your enrolled courses, schedules, and materials.

Finance

In the finance section, you can view your fee structure, make payments, and check your financial status.

Results

Here you can view your academic results, grades, and performance reports.
